

District Referee Administrator's Report

September 8, 2004

1. USSF Registration for 2005

CNRA has sent the first listing for the D7 referees who are registered for 2005. There are 208 registered referees on the listing; the majority is referees that took the entry-level clinics this past summer.

Youth League Referee Coordinators need to remind their referees to re-register for 2005 ASAP.

REMEMBER: The person needs to have been registered with USSF in either 2003 or 2004 to re-register for 2005. Any persons who were not registered with USSF in either of those years must retake the entry-level clinic.

2. Referee Assignments for HSY/DH Playing Leagues

The assignors for the Fresno and Clovis sites are both advising me they are having difficulties in assigning referees to games this coming weekend.

Many of the called referees have other plans for this coming weekend and are slow in returning telephone calls to the assignors.

Coaches/assistant coaches need to be advised they may need to officiate if games do not have 3 assigned referees.
